Individual legal counsel
for refugees

ENGLISH

This project is funded by the asylum,
Migration and Integration Fund co-financed.

Europäische Union

Have you applied for asylum and do you possess an Aufenthaltsgestattung or Ankunftsnaehweis? Is your asylum procedure being carried out in Hamburg?

Do you require independent advice and support for your asylum application?

Contact us now!

About the project

on your side is sponsored by funds from the EU AMIF fund. This enables us to provide independent legal advice to refugees who have been granted an Aufenthaltsgestattung or received your Ankunftsbescheinigung.

Confidential sessions conducted with an interpreter allow us to offer you individual preparation advice for your hearing and to accompany you to your hearing within the scope of our capacities. We can provide you with advice throughout your ongoing asylum procedure and help you to contact other institutions and doctors.

Important:

We neither want nor intend to supersede the legal counsel offered by the Federal Office for Migration and Refugees as per Art. 12a of the Asylum Act (AsylG). We urgently recommend you to also use this service!

We offer:

- ◆ Independent counselling from lawyers and a psychologist on all matters related to the asylum procedure
- ◆ Discussions in your native language or a language that you are able to understand with the help of an interpreter
- ◆ Individual preparation for your hearing
- ◆ Accompaniment to your hearing as part of your asylum procedure
- ◆ Assistance contacting doctors, lawyers and information centres
- ◆ Free support

About us:

fluchtpunkt provides legal counsel for refugees. Since 1993, our lawyers have been providing advice to people who are yet to receive a secure residence status in their asylum and residence procedures.

fluchtpunkt was established by the Evangelical-Lutheran parish of Hamburg/West-Südholstein and is consequently a non-governmental organisation.

We do not charge our clients for our services. Our employees are required to maintain confidentiality.
